

When the whole education system is aligned to the 21st century vision—the Portrait of a Graduate—**equitable, deeper learning outcomes for every student** can be realized.

Building on the locally developed Portrait of a Graduate, this nested system approach – Portrait of a Graduate, Portrait of an Educator, Portrait of a Leader, and Portrait of a System – provides the cohesive alignment, necessary to bring the vision to life. The nested system framework illustrates the dependency of each component part of the system for **enduring transformation**.

START WITH BUILDING A SHARED VISION FOR STUDENT SUCCESS IN 21ST CENTURY

Portrait of a Graduate

Our facilitation of the Portrait of a Graduate design process includes the engagement of a local Design Team, comprised of diverse perspectives from the broader community to inspire ownership, ambassadorship, and action. Through an exploration of the changing landscape and the use of an online Portrait-My Sketch tool, Design Team members explore essential 21st century competencies to identify the community's shared aspiration for today's learners. This vision becomes the system's North Star for transformation.

On Your Own: Explore our free "Getting Started Guide" at portraitofagraduate.org and other self-starter resources.

ALIGN THE WHOLE SYSTEM TO REALIZE THE VISION

Portrait of an Educator

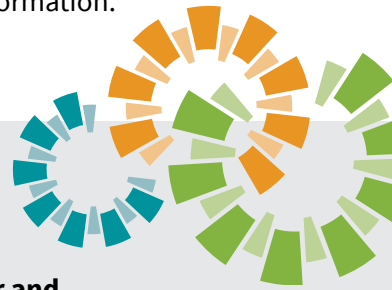

Locally developed, the Portrait of an Educator identifies the competencies necessary for today's 21st century education workforce. This exploration reveals the supports the system needs to provide for educators as they shift practice and implement deeper learning experiences aligned to the Portrait of a Graduate. The Portrait of an Educator is integral to our Human Capital21 offerings as we integrate these educator competencies into building the capacity of our current teachers and seek to hire the skills necessary to achieve our Portrait of a Graduate vision.

Portrait of a Leader

This facilitated process engages system leaders in the exploration of the skills and mindsets essential for leading 21st century educational transformation. Throughout this process, leaders reflect upon their own readiness to advance 21st century education while also identifying ways to build organizational capacity to advance equitable and enduring deeper learning outcomes for every student.

Portrait of a System

Every school system is unique and complex with interdependent parts. Intentionally aligning each part of the system establishes conditions of readiness to bring the vision to life for every student. Our Portrait of a System facilitation process includes a 21st century education system Self-Assessment Tool to help education leaders reflect, align, and establish foundational readiness for the system's transformation. This facilitated process is also a key component in our strategic planning process.

Who is Battelle for Kids?

Battelle for Kids is a national, not-for-profit organization whose mission is **realize the power and promise of 21st century learning for every student**. The BFK team has extensive experience in Portrait of a Graduate, Portrait of an Educator, Portrait of a Leader, Portrait of a System, and strategic planning with a wide variety of school districts across the nation. In addition, BFK offers a suite of capacity-building learning and consulting services to help accelerate your Portrait to Practice.

In just the past five years,
we have worked with

1,300+

school districts, state
departments of education, &
other education nonprofits.

Impacting the educational
experiences of

2.2 million+
students.
