A Network of BattelleforKids

**CONNECT,  
LEARN, &  
ACCELERATE  
TOGETHER**

This is not your ordinary network.

EdLeader21 is Battelle for Kids' network of innovative school systems committed to the transformation of education, anchored in a renewed vision for student success in the 21st century—**Portrait of a Graduate**.

Members have a shared vision: that each child experiences an education that purposefully integrates rigorous academic content with the skills and mindsets that empower students as lifelong learners and contributors in our ever-changing world.

## ANNUAL EVENT

### Annual Event & Portrait to Practice Fair

The network convenes annually to collectively advance deeper learning by showcasing innovative practices, learning together, and building capacity. Members also come together virtually in Winter 2021 and Spring 2022 for professional learning workshops as a continuation from the Annual Event.

*"There are still so many more questions than there are answers right now. That's why we're here today to keep learning together as a network and deepen the work happening in our districts."*
