Value-Added Resources

Visit the Ohio Portal at BattelleforKids.org/Ohio to access these free value-added resources, made available through a partnership between the Ohio Department of Education and Battelle for Kids.

Establishing the Culture

Creating a Culture of Readiness: Analyzing and Using Value-Added Information

Learn from district and school leaders who have established the right conditions and incorporated the right processes to enable their systems and schools to effectively analyze and use value-added information.

Understanding Value-Added Measures

NEW! Updated Online Courses *(login required)*

Value-added online courses are designed to build awareness and improve understanding of Ohio's value-added measures. The new courses include:

- MRM001: Understanding Value-Added in Grades 4–8 Math and ELA (MRM)
- URM001: Understanding Value-Added in Science, Social Studies, and End-of-Course Exams (URM)

Log in to the Ohio Portal at BattelleforKids.org/Ohio. Then choose “Courses.”

Value-Added Video Series and Facilitation Guides

This video series provides a basic, conceptual understanding of Ohio's value-added measures to foster the appropriate and effective use of value-added information.

- Includes five instructional videos with facilitation guides and two videos with practitioners sharing their experiences using value-added data.
- Highlights differentiated approaches to professional learning and promotes collaborative discussions.

Interpreting and Analyzing Value-Added Reports

School Leader and Teacher Value-Added Guidebooks *(login required)*

The value-added guidebooks are designed to help educators use value-added to impact teaching and learning. Using sample value-added, diagnostic, and projection reports, these guidebooks help educators develop a knowledge of the anatomy of the reporting that is essential for accurate interpretation.

Support Network

Regional Data Lead (RDL) Network

Regional Data Leads (RDLs) can support district implementation of these value-added resources. RDLs can also support your understanding and use of Ohio's Report Card Measures in your region.
