A Message From Superintendent Dr. Berhl Robertson, Jr., Ed.D.

Lubbock ISD is committed to providing our employees with new tools, supports and data to personalize professional development and guide practice. Among these tools, we are increasingly using value-added analysis to improve teaching and student learning.

We encourage you to take advantage of the value-added online courses available through the e3 portal. Organized into learning paths, these courses can help you learn how to apply value-added analysis to inform instructional decision making.

Thank you for your commitment to your own professional learning and to empowering educational excellence (e3) for every child, every day.

{ Tips }
