

## PRACTICES FOR DEEPER LEARNING LEADERS

**Constant change offers opportunities to rethink and reimagine leadership practices.**

**Leader21•Principal** develops the transformative leadership skills necessary to actively promote and scale deeper learning in schools. This unique learning experience is for school leaders in education systems with a vision for deeper, 21st century learning.

*In Leader21•Principal, leaders actively reflect upon and explore their leadership practices across these areas:*

### Leading Yourself

Intentionally find opportunities to learn and reflect, striving to be vulnerable and transparent.

### Leading Others

Create opportunities for feedback and coaching so all educators have support as they work to align their practice to our deeper learning vision for student success.

### Leading The Organization

Align resources to our deeper learning vision for student success.

### Leading The Learning

Purposefully help staff integrate the system's deeper learning vision with the learning experiences they design.

## Who should participate?

- Principals and assistant principals
- Aspiring principals/teacher leaders
- Supervisors/coaches of school principals

To build capacity and coherence throughout the system, district teams are encouraged to attend.

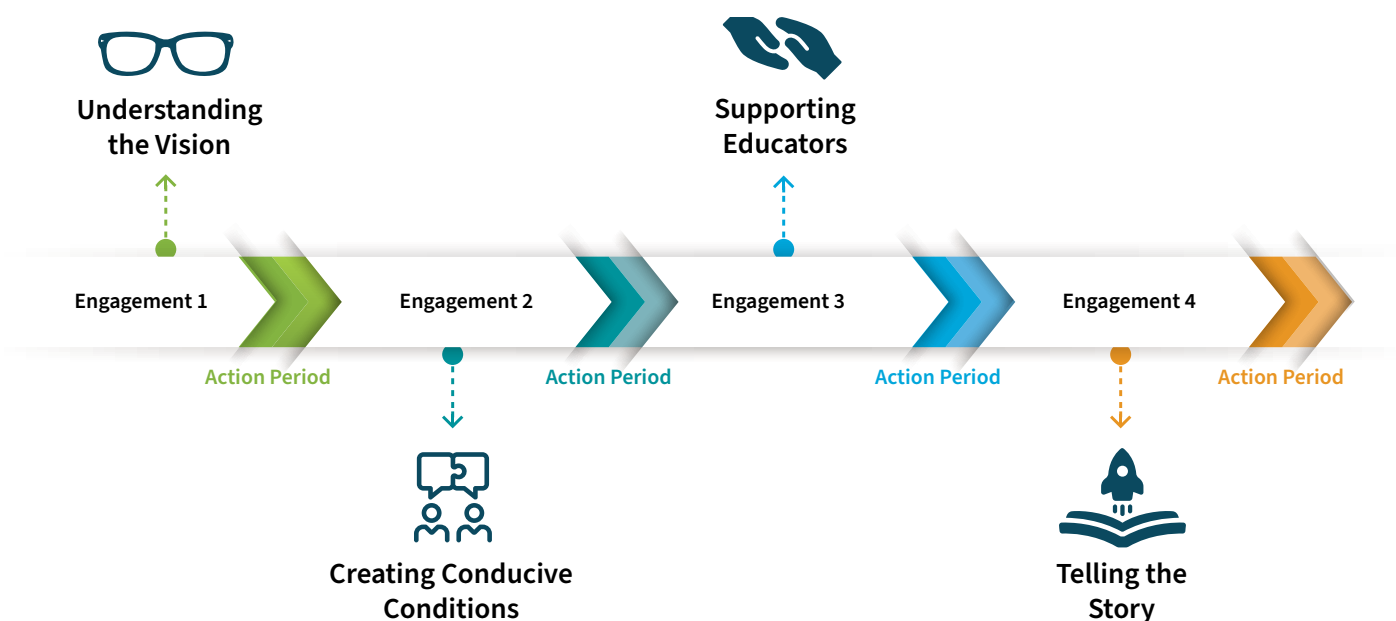

# Leader21•Principal

by BattelleforKids

## What are the practical takeaways from Leader21•Principal?

- School leaders are equipped with leadership practices and immediate practical application to support educators in designing and implementing deeper learning experiences.
- School leaders receive tools for reflection and implementation to support educators in designing and implementing deeper learning experiences.
