

Battelle for Kids

SOARnetwork

Calling All Visionaries

HERE'S WHAT WE HEARD FROM OUR SOAR NETWORK DURING THE 2017-18 SCHOOL YEAR:

“This is the exciting work—the convergence of what used to be and what is needed—and it is forcing change at every level of our educational systems. We are at the tipping point, and as superintendents, it’s our role to transform how schools prepare kids for their futures.”

“Good to see ‘what’s possible’ through the collaboration”

“Coherence – you could not have picked a better read for this group!”

“I’m really excited for the Portrait discussions, that’s the vehicle for us to develop our vision!”

“I appreciate the diversity of this group-and we are a lot more alike than we are different.”

“Our teacher teams decided we need to have true, honest discussions with our graduates—we need to better understand how our kids experience our ‘system.’”

“You’ve obviously designed this to our feedback- look at the growth.”

“The conversations I’ve had here have empowered me more than anyplace I’ve ever been as a superintendent!”

“Really excited to be a part of the 21st Century Learning Design and learning from other districts to prepare my students/faculty/staff for the 21st century and beyond.”

“I always feel energized and positive after attending. The information that is presented is fresh and progressive.”

“Best part of the day was hearing what other districts are doing.”

“I find the sessions very inspirational and energizing. I am excited by the changes happening in school districts in Ohio.”
