

Assessment For Deeper Learning

Now is the time to equip and empower educators with relevant professional learning for assessing 21st century skills and mindsets.

Assessment21 is a professional learning experience for teachers, principals, and other system leaders to assess for deeper learning.

Participants will experience a flipped classroom approach through a blend of flexible, self-paced online courses and interactive, virtual sessions. Facilitated by national experts who coach participants and model practices for virtual learning, Assessment21 is practical and relevant for every educator today.

This six-week, professional learning experience is built on decades of field-based experience to help educators:

- ☑ Understand deeper learning competencies
- ☑ Design assessment for deeper learning
- ☑ Use rubrics to score complex student work
- ☑ Utilize student-engaged assessment practices

“Assessment21 provides a practical introduction to the assessment of deeper learning. The blended model provides valuable opportunities for learning and sharing with colleagues at various levels. It is propelling us forward with greater focus and intentionality.”

— Superintendent

bfk.org/Learning

Who should participate?

This professional learning is ideal for teachers, principals, and other system leaders at all grade levels and subject areas throughout the K–12 system.

“Assessment21 provided our teachers with practical and easy to implement strategies to increase student engagement and provide deeper learning experiences.” – Teacher

What is the learning schedule?

This six-week blended learning experience is designed to adapt to today’s busy educator.

- The flexible, self-paced online courses are 2-4 hours per week.
- The interactive, virtual sessions are 2 hours per week and provide live interaction, coaching, and feedback.

Both online courses and recorded virtual sessions are easily accessible via an online collaboration platform.

WEEK 1:
Kickoff and
Introduction

Principles of Deeper
Learning Design

WEEK 5:
Assessment for
Deeper Learning:
Refining & Scoring

WEEK 6:
Incorporating
Student Engaged
Assessment
Practices

What are the practical takeaways from Assessment21?

Participants are supported in adapting their current units of study to implement new and innovative practices. Throughout the six weeks, participants will develop a Portfolio of Learning for reflection and professional growth.

“Assessment21 was so well structured with great content, and the support from BFK was so amazing and timely; we are going to have all our teaching staff go through Assessment21.” – Administrator

Flexible scheduling options are available for
teams, schools, and districts.
